No woman is fit to marry who has any unhealthy condition of the special structure most intimately concerned in wifehood and motherhood. No modest reluctance thould prevent her seeking immediate relief from such troubles. There is no need of the morifying examinations so detestable to sensitive minded women. Doctor Fierce's Pavorite Prescription is daily curfug thousands of women of these troubles in the privacy of their homes.

The "Favorite Prescription" is the only proprietary remedy of its kind prepared by an educated, authorized physician. There is hardly a case so obstinate that it will not completely and permanently cure.

The Fairmont Athletic Club was the opposing team, and the battle was a opposing team, and the battle was a royal one. The University played an errorless game and won by a score of 7 to 4. Mitchell won the game for his team in the sixth inning, when with three men on bases he knocked a home run. Jones and Blue were the battery for the University, and Fee and Edwards for Fairmont. For the first time in several years the University base ball team has concluded its season with some money in the treasury.

BOXING.

The first evidence of friction between the two boxing clubs, the Metropolitan and Bridgeport, came to light yesterday, when the over-the-river club announced that it would pull off a contest on June 27, between Oscar Gardner and Joe Bernstein. The latter's letter asking for a bout with Oscar Gardner before the Bridgeport Club, was received by Matchmaker Murphy yesterday, and

came down the stretch like a wild horse and looking every inch a winner. Martin was whipping Plaudit and riding like a demon. A hundred yards from the wire Plaudit made a gallant effort to come on, but it was of no use, his speed and endurance were gone, and Han d'Or crossed the wire a winner by three lengths. The first half of a mile was covered in 50 seconds; the six furlongs in 1:144; seven furlongs in 1:274; mile in 1:404; mile and an eighth in

1:54, and the mile and a quarter in 2:07%, the final time being 2:32%, which is a quarter of a second better than any
